3.2.1 Nakachari College has created an ecosystem for innovations and other initiatives for creation and transfer of knowledge:

Nakachari College has created an ecosystem for innovations and other initiatives for creation and transfer of knowledge to explore the innovative ideas among the students and facilitate them to face the competitive world. The institution has established an **Institution Innovation Council (IIC)** on 25th May 2022 initiated by Ministry of Education to prepare students with needed skills. The institution encourages the students to come up with innovative thoughts and the best model has been showcased.

The institution has established **Research and Development Cell** to promote research, innovation and intellectual knowledge and to integrate teaching and research components service to the society. The cell will conduct seminars, workshops, training programmes and symposia on areas and issues related to knowledge including Intellectual Property Rights (IPR) in collaboration with industries and academic agencies on coming days. Research and Development Cell (R&D Cell) of Nakachari College promotes the students and faculty member of the institute for research and innovations related activities in their respective domains. It aims to nurture research culture and training in research and related skills for enhancing the academic quality and the general research capability of budding entrepreneurs to compete the technical world. R&D Centre tries to bridge gap between academics and industries to make education more sustainable. This cell committed to improve the quality of education, in terms of technological based learning and provide the solution for societal problems. Main Objective of R&D Cell is –

- To create awareness and Research atmosphere among faculty and students of various departments.
- To inculcate culture among the staff members to undertake research projects and improve their knowledge, skills and qualifications by registering for Doctoral Programs.

- To motivate the faculty members for R&D activities in the area of their specialization.
- To encourage students and staff to publish technical papers in National and International Journals/Conferences.
- To undertake research activities and development projects offered by funding agencies such as UGC.
- To assist for applying and getting funds for conducting Seminars/Workshops/FDPs from various available funding agencies.
- To facilitate the growth of research activity among the academic community.
- To coordinate faculty level workshops and staff development activities on research-related issues.

The **Entrepreneurship Development Cell** is also formed to develop entrepreneurial abilities among the students. The cell will organize innovative business plan competition, and other relevant programmes propitiating students to be ultimately self-employed. Main Objective of Entrepreneurship Development Cell is –

- To create awareness among students about entrepreneurship.
- To inculcate culture among the students for entrepreneurship and improve their knowledge and skills through workshops/talks.
- To motivate the students to become entrepreneur.
- To encourage students to take participation in National and International workshops/talks related to entrepreneurship.
